O-REX LLC prepares and supplies customized gasket kits for maintenance and repair of manufacturing machinery and equipment.

Our o-ring kits are used by the companies selling, maintaining and operating machinery and equipment.

O_REX offers you affordable and safe way of swift and effective solution of a problem related to o-rings and reduction of machinery and equipment downtime.

All of our kits include only high-quality o-rings, which not only comply with OEM's requirements, but also surpass them substantially.

Kits have individual item numbers by manufacturer and machinery model range. A list of gaskets specifying their quantity is attached inside the case cover which makes their identification easier.

Our kits are ideal for maintenance of manufacturing machinery and equipment for mining, oil and gas, timber, construction industries, mechanical engineering etc.

You may choose gasket kits not only by manufacturer, but also for a certain vehicle model.

Product range of O-REX Company includes gasket kits for machinery of the leading international manufacturers, such as: Caterpillar, Komatsu, Hitachi, Liebherr, Terex, John Deere, Volvo, Hyundai, Atlas Copco, Dressta, Doosan, Daewoo, Chetra, Shantui, Pongse and others.
