

GPA-25 GAS COMPRESSOR SET

GPA-25 gas compressor set is one of the UEC-Gas Turbines, JSC recent developments. This unit embodies the most sophisticated gas turbine and compressor technologies and has high performance.

PS-90GP-25 gas turbine (manufactured by UEC-PM) is used as a centrifugal compressor drive.

Technical features	
Drives	PS-90GP-25
Rated output, MW	25
Efficiency, %	37.9
Gas fuel flow rate at nominal rating, kg/h	4 475
Overhaul life expectancy, h	25 000
Assigned life expectancy, h	100 000
Service life, years	20
